Gurugram, Haryana, India

A trusted name in Indian cumin

Gadin Technologies is a Gurugram-based supplier, distributor and exporter of premium Indian cumin seeds (jeera), serving buyers across the Middle East, Asia, Europe, the Americas and Africa.

We work directly with the primary cumin belt of India — the mandis of Unjha (Gujarat), the world's largest cumin market, and the growing regions of Rajasthan. (A “mandi” is a regulated wholesale farm market where produce is auctioned.) Buying close to the source lets us hold quality high and pricing sharp.

Every consignment is machine-cleaned, colour-sorted and lab-tested before it leaves India. Whether you need standard Singapore-quality jeera for bulk trade or ultra-clean Europe-quality seed for retail packing, we can match the exact grade, specification and packaging your market demands.

As a registered Merchant Exporter with the Spice Board of India and a valid FSSAI central licence, we handle the full paperwork of export — so you receive your cargo cleanly, on time, and fully documented.

“The right grade, the right price, delivered anywhere in the world.”

Six reasons buyers choose Gadin

From sourcing at the world's largest cumin mandi to secure, flexible payment terms — we protect your quality, your budget and your timeline.

01

Direct source, best price

We buy straight from Unjha & Rajasthan mandis, cutting middle layers so you get competitive pricing on every grade.

02

All grades, one supplier

Singapore, Europe, sortex, machine-cleaned and ground cumin — every quality and specification under one roof.

03

Quality assured

Colour-sorted and lab-tested for purity, moisture, residue and aflatoxin. A Certificate of Analysis backs every lot.

04

Worldwide shipping

FOB, CFR or CIF from Mundra, Kandla & Nhava Sheva to any destination port, with full export documentation.

05

Secure, flexible terms

30% advance + 70% against B/L, or 100% irrevocable LC at sight — payment structures that protect both sides.

06

Fully compliant exporter

Registered with the Spice Board of India, FSSAI licensed and IEC-holding — legitimate, verifiable and audit-ready.

Grades for every market

Choose the exact purity, cleaning method and format your buyers expect. Terms explained in plain language below.

MOST POPULAR

Singapore Quality Cumin

PURITY 98% – 99%

The workhorse export grade — clean, uniform, machine-cleaned jeera trusted across the Gulf and Asia. “Singapore quality” is the widely-accepted mid-standard trade grade.

PREMIUM

Europe Quality Cumin

PURITY 99.5% +

Double-sortex, low-admixture seed built for strict EU/UK/US norms. “Europe quality” means tighter purity and lower pesticide-residue limits.

ULTRA-CLEAN

Sortex Cleaned Cumin

PURITY UP TO 99.9%

Optically colour-sorted seed — impurities and discoloured grains removed grain-by-grain. “Sortex” is a machine that sorts by colour for a uniform look.

BULK

Machine Cleaned Cumin

PURITY 98% – 99%

De-stoned and gravity-separated on modern lines — dependable value grade for high-volume bulk and re-processing buyers.

VALUE-ADDED

Cumin Powder (Ground)

FRESHLY MILLED

Ground jeera milled from clean whole seed, sieved to a consistent mesh — ideal for retail packing, HoReCa and food processors

ON REQUEST

Custom & Private Label

YOUR SPECIFICATION

Bold, green or roasted cumin, custom purity, steam-sterilised lots and buyer-branded retail packing — built to your exact brief

TECHNICAL SPECIFICATIONS

Grade specification chart

Indicative export specifications — final parameters are confirmed on the Certificate of Analysis (COA) for each shipment and can be tailored to your requirement.

GRADE	PURITY	ADMIXTURE (MAX)	MOISTURE (MAX)	CLEANING METHOD	TYPICAL MARKETS
Singapore 98%	98%	2.0%	9%	Machine cleaned	Middle East, Asia
Singapore 99%	99%	1.0%	9%	Machine + air	GCC, SE Asia
Europe Quality	99.5%	0.5%	8%	Double sortex	EU, UK, USA
Sortex Cleaned	99.9%	0.1%	8%	Optical sortex	Premium / retail
Machine Cleaned	98–99%	1–2%	9%	De-stone + gravity	Bulk / global
Cumin Powder	Ground	—	8%	Milled & sieved	Retail / HoReCa

Common quality parameters (indicative): Volatile oil 2.5%–4.5% • Total ash ≤ 9.5% • Acid-insoluble ash ≤ 1.5% • No added colour • Natural greenish-brown seed with characteristic aroma. Steam-sterilised, pesticide-residue-compliant and organic lots available on request.

COA

PER SHIPMENT

From mandi to container

Every lot passes an eight-stage cleaning and testing chain before it is packed for export.

- 1 Sourcing**
Selected seed lots bought at Unjha (Gujarat) & Rajasthan mandis at peak season for freshness and price.
- 2 Pre-cleaning**
De-stoning and sieving remove dust, stones, stems and oversized foreign matter.
- 3 Gravity separation**
Air and gravity tables strip out light chaff and heavy impurities to lift purity.
- 4 Magnetic separation**
Metal detectors and magnets catch any ferrous contamination in the flow.
- 5 Sortex (colour sorting)**
Optical sorters reject discoloured and off-grade grains for a clean, uniform seed.
- 6 Steam sterilisation**
On request, steam treatment reduces microbial load without chemicals for sensitive markets.
- 7 Lab testing**
Purity, moisture, volatile oil, pesticide residue, aflatoxin & microbiology — issued as a COA.
- 8 Packing & fumigation**
Food-grade bags, buyer marking and container fumigation ready for dispatch.

Testing is done through NABL-accredited / FSSAI-recognised labs (NABL = India's national lab-accreditation body). A Certificate of Analysis accompanies each export lot, so your quality is documented before the cargo sails.

— PACKAGING OPTIONS

Packed the way you sell

Standard export sacks, bulk jumbo bags or fully buyer-branded retail packs — all in food-grade material.

PP / Jute Bags

New PP or jute sacks in 25 kg & 50 kg — the export standard for whole cumin.

Paper Bags + Liner

Multi-wall paper bags with inner food-grade liner in 10 kg & 25 kg.

Retail / Vacuum Packs

100 g to 1 kg consumer packs, vacuum or pillow, for shelf-ready retail.

Jumbo / Big Bags

500 kg–1000 kg FIBC bulk bags for large-volume industrial buyers.

Private Label

Your brand, artwork, language & barcode printed to your specification.

Container Loading

Palletised or floor-loaded FCL, fumigated and sealed for the voyage.

≈ 18 MT

PER 20' FCL*

≈ 26 MT

PER 40' FCL*

1 FCL

TYPICAL MOQ*

*Indicative loading & minimum order quantity — final figures depend on grade, bag size and packing. Smaller trial quantities can be discussed.

Simple, secure, worldwide

Clear Incoterms, transparent documentation and payment options that keep both buyer and seller protected.

Shipping & Incoterms

- **Incoterms:** EXW, FOB, CFR & CIF
- **Load ports:** Mundra, Kandla, Nhava Sheva (JNPT)
- **HS Code:** 0909 31 (whole) / 0909 32 (ground)
- **Lead time:** 7–15 days after order confirmation*
- **Reach:** All major destination ports worldwide

Documents We Provide

- Commercial Invoice & Packing List
- Bill of Lading (B/L)
- Certificate of Origin (COO)
- Phytosanitary & Fumigation Certificates
- Certificate of Analysis (COA) + licence copies

Payment Terms

OPTION A · ADVANCE + B/L

**30% advance,
70% against B/L copy**

OPTION B · LETTER OF CREDIT

**100% irrevocable
LC at sight**

A Bill of Lading (B/L) is the shipping receipt proving your cargo is loaded; an LC is a bank guarantee that pays us once shipping documents are presented — the safest route for a first order.

*Lead time is indicative and depends on grade, quantity, season and vessel schedules. Terms confirmed on the proforma invoice for each order.

A legitimate, verifiable exporter
